Canon

imageRUNNER C3326i

PRODUCTIVITY

- Fast warm-up time starts print production more quickly
- Print a wide variety of media types and sizes, continuously in high-volume
- Personalise the user display configuration to enhance document processing efficiency
- Streamline document post-production with optional finishing options, including eco-staple, staple and punch

USER EXPERIENCE

- Easy to use 7-inch/17.8cm touchscreen provides excellent visibility and usability for intuitive handling
- Optimise print, copy, scan and send document workflows to one-touch operation
- Combine multiple settings into one button for super-fast document processing
- Repeat previous jobs at the touch of a button with Timeline setting history

SECURITY

- Verify System at start up supporting Platform Firmware Resiliency (NIST SP800-193) and Automatic Recovery, SIEM support and McAfee Embedded Control analyse the device in real-time to detect and prevent external attacks
- Set up device authentication, two-factor authentication and device function restrictions for both device and cloud-based security measures
- Optional Encrypted SSD storage extends data protection and is more resistant to vibration and shock for increased reliability
- Upgrade to uniFLOW Online* for enhanced secure printing, mobile printing, and guest printing from any device
- Data privacy across your network is ensured with IPSec, port filtering and TLS 1.3 & WPA3 support
- Step-up security further with easy-to-programme Security Navigator or let Canon's experts create best solution for your business environment

CLOUD CONNECTIVITY

- Save scanned documents to your email or Google Drive/Google Workspace using personalised workflows with uniFLOW Online Express
- File Assist automatically names, sorts and create a folder structure for files
- Print wirelessly from mobile devices, with support for Apple AirPrint and Mopria
- Add extra functionality to mobile printing and scanning with Canon's PRINT Business app

CONTROL AND MAINTENANCE

- Centrally manage all devices on the network with cloud-based remote management options
- Remote Operators Software Kit provides alternative access to device for remote operation of all system functions
- Compatibility with Canon's uniFLOW software solutions allows for tracking and reporting of print jobs
- e-Maintenance can improve uptime through remote diagnostics, automated meter readings and consumables monitoring

SUSTAINABILITY

- Edit print settings at device-level to reduce paper and toner wastage
- Converting document to digital files minimises paper usage
- Eco-stapling option allows for further reduction of consumables
- Energy saving features, such as Sleep Mode help to decrease power consumption
- Better typical energy consumption (TEC value) compared to previous series minimises running costs

*uniFLOW Online is available as a Device Based Cloud Subscription for Document Output and Capture Management. Based on business needs, users can upgrade to uniFLOW Online to unlock a range of advanced benefits, including: Increased security with user authentication methods. Personalised workflows to enhance productivity. Reduced wastage by releasing jobs at the device. An intuitive cloud dashboard to leverage real-time data. Greater control over access and usage to reduce print costs.
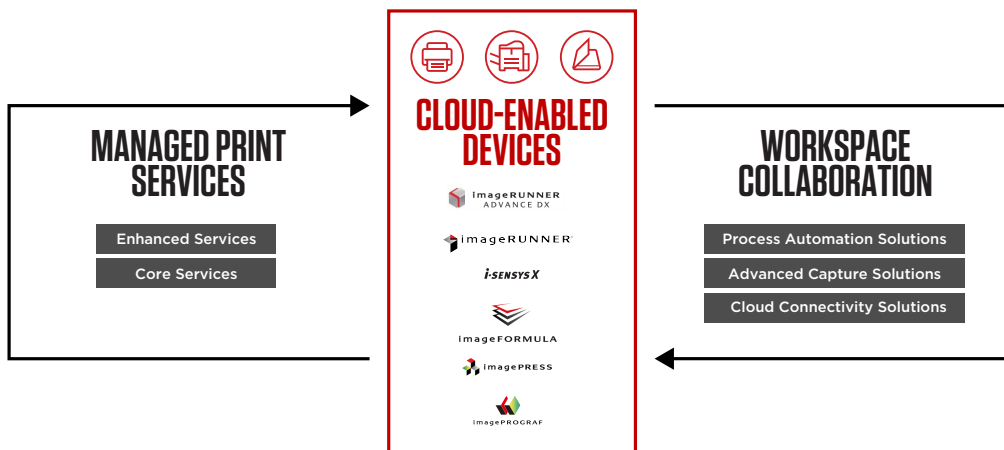

QUICK FACTS

- Print, Copy, Scan and Send
- 7-inch/17.8cm WVGA colour touchscreen
- One-touch operation with Timeline and Shared/ Personal buttons
- Print speed of up to 26ppm
- Support for a wide range of media types and sizes
- uniFLOW Online Express* cloud-based print management solution

- Automatic file naming, sorting and folder structure with Filing Assist**
- Document, device and network security from McAfee Protected Control, TLS1.3, WPA3 and SIEM support
- Easy maintenance with automatic firmware updates
- Finishing options include eco staple, staple and punch

*requires activation

**available with subscription to uniFLOW Online Cloud based print management solution
